

Cod. Art. :
AP1164

Blood donor armchair fixed height on wheels with independent movements - Anti-shock position.

Safe, complete, ergonomic

Armchair with frame made of steel varnished with epoxy powders and treated with permanent antibacterial ().

The shell of the seat is made of plywood padded with differentiated density foam and covered with soft skai; the back of the seat is made of thermoformed ABS. The backrest and the calf section can be adjusted independently through bilateral levers.

The backrest is equipped with a lumbar support. The armrests, padded and upholstered, are shaped for a better containment and are adjustable in all directions thanks to a special sector clamp.

The armchair is complete with 4 swivelling and pivoting wheels (Ø 125 mm) with independent rear brakes.

Compact & functional design

AP1164 armchairs are Givas "entry level" types for the sampling sector.

Compact dimensions and lying surfaces with a wraparound design and a seamless upholstery lend a unique practicality of use in their product category.

The independent movement of the back and calf sections or synchronized , combined with the

possibility of reaching an incline of -6° make them functional for hospital and outpatient departments.

Technical details:

- Painted with epoxy powders and treated with permanent antibacterial.
- Armrests are adjustable in all directions.
- 4 wheels with brake
- The backrest and the calf section can be adjusted independently through .
- Complete with 4 wheels (\varnothing 125 mm) with brakes.
- Dimensions: 720x900x1230 mm
- Seat width: 540 mm
- Seat depth: 450 mm
- Seat height from ground: 520 mm
- Yellow color
- Capacity: 150 kg
- Weight: 40 kg
